

Name of Project

Methanex

Location

Medicine Hat

Project Summary

The Methanex facility in Medicine Hat is a commercial scale methanol producer. The facility was restarted in 2011, distillation capacity was added in 2013 and a major plant refurbishment was done in 2015.

Pronghorn has completed several projects at Methanex including:

2021 Assisted Methanex Engineering with pre-shutdown planning

2015 Shutdown/Reformer Upgrade/DCS Upgrade (20-35 man crew)

2013 Distillation Upgrade Project \$2.2MM (20-25 man crew)
